## RE: ANNUAL PRICE UPDATE

Dear Valued Customer,

Thank you for your continued partnership with Beeswift, we truly value your business and ongoing support.

### 1. Annual Price Update

To ensure we can continue maintaining the standards in product quality and service you rightly expect, we will be updating our pricing effective 13 April 2026. As part of this update, where we have negotiated improved costs we will be reducing prices to maintain competitiveness and ensure strong value for our customers. In other areas the price will be increasing to reflect inflationary pressures across our supply chain, including, but not limited to:

- The National Living Wage increase of 4.1% effective 1 April 2026
- Increasing packaging and regulatory compliance costs, including Extended Producer Responsibility
- Energy and fuel costs

Prices will increase by an average of 3.1% across all products.

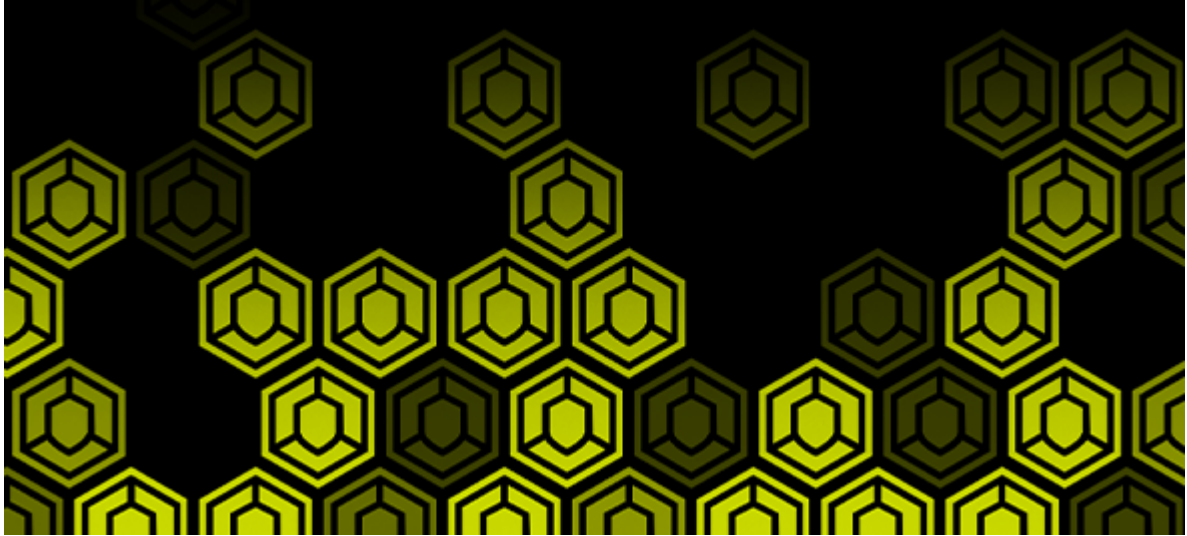

### 2. Temporary Surcharges

At the time of writing the political and economic landscape remains volatile, in particular the conflict in the Middle East. We are already working with our suppliers to mitigate any potential cost increases, however, should any cost impacts arise that we cannot mitigate, these would be managed through temporary surcharges which we will communicate separately where necessary.

Thank you once again for your continued partnership. We look forward to supporting you throughout 2026 and beyond.

Mark Smith, Sales Director    Oliver Storr, Commercial Director
